First Aid Measures:	Inhalation: May cause respiratory tract irritation. Remove to fresh air. If symptoms develop and persist, get medical attention. Skin Contact: May cause allergic skin reaction or irritation. Remove contaminated clothing and shoes. Wash with soap and water. Get medical attention if symptoms occur. Eye Contact: Will cause eye irritation. Flush with copious amounts of water, preferably lukewarm water for at least 15 minutes, holding eyelids open all the time. Get medical attention. Ingestion: Not expected to be harmful by ingestion. Do not induce vomiting. Keep individual calm and seek Medical attention.			

SECTION VII - Precautions for Safe Handling and Use

Steps to Be Taken in Case Material is Released or Spilled

Do not allow spill to enter drains and watercourses. Adsorb in inert material such as sand or adsorbant granules. Store in partially filled, closed container to await transfer.

Precautions to be Taken in Handling and Storing

Avoid contact with eyes, skin and clothing. Avoid breathing vapor and mist. Wash thoroughly after handling.

For safe storage, store at or below 38° C (100° F). Keep in cool, well-ventilated area away from heat, sparks and open flame. Keep container tightly closed until ready for use.

Personal Protection / Exposure Controls

No specific ventilation requirements noted, but forced ventilation may still be required if concentrations exceed occupational exposure limits.

Use NOISH approved respirator if there is potential to exceed exposure limits.

Use impermeable gloves (neoprene, butyl rubber or natural rubber) and protective clothing as necessary to prevent skin contact.

Wear safety glasses with side shields or safety goggles.
